

ForestGuard AI - Analysis Report

AI-Powered Forest Monitoring & Risk Detection System

Region Information

Region: Tadoba-Andhari Reserve
Risk Level: Low
Confidence Score: 100.0%
NDVI: 0.760
Vegetation Loss: 0.5%
Risk Score: 0.24
Generated: 1/8/2026, 10:19:14 pm

Analysis Information

Detection Method: ml
Processing Time: 1.31 seconds
Satellite Source: Sentinel-2

Gemini AI Risk Explanation

Automated assessment classified this region as Low risk from a mean NDVI of 0.76 and an estimated 0.5% vegetation loss. Generated without AI narration.

Recommended Actions

1. Continue routine satellite monitoring.
2. Maintain the regular AI analysis schedule.
3. Preserve this report for future comparison.
